

Task # 3

1. Common part

Required to create xpath or css locators for the highlighted controls in the attached *locators_task_interm_1.png* file (for learning website <https://parabank.parasoft.com/parabank/index.htm>)

Remark. Please write the locators in compliance with the simple, e.g.

`"input[name='uid']"`

`"//input[@name='uid']"`, etc

Remark. The common task part will be verified a bit later as part of the future tasks related to the automated framework

2. Individual part

Required to create xpath or css locators for the highlighted controls for the website <https://www.wiggle.com/> in the attached folder. The folder contains 14 pictures and excel file with the students' list. Every student selects the picture number according to the attached students' list.

Remark. Please write the locators in compliance with the simple, e.g.

`"input[name='uid']"`

`"//input[@name='uid']"`, etc

If you have any misunderstandings, please reach out me directly

Both parts' deadline is 2026.04.22
